9th March 2009

Dear Richard

NJUG Vision for Streetworks

Folkestone & Dover Water Services Limited supplies water to approximately 67,000 people and 5,000 businesses in the South East of Kent, within an area of 420 square kilometres. A large proportion of the company's water mains and service connections are situated within the public highway and maintaining and improving this infrastructure is an integral part of our business.

The Company is committed to working safely and efficiently whilst minimising disruption to road users by working together with other utilities and the highway authority. We strive to carry out all work to a consistently high standard and will embrace innovative techniques to achieve these goals.

I am therefore pleased to support the NJUG Vision for Street Works, which fully aligns with the Company's own objectives.

Yours sincerely

A handwritten signature in blue ink, appearing to read 'David Walton'.
