Dear Mr Guest

NJUG Vision for Street Works

Scotia Gas Networks (SGN) is responsible for the maintenance and improvement of the gas network infrastructure in Scotland and southern England.

The safety of our employees and members of the public is our top priority. We continually strive to improve our performance on street works, building relationships and working closely with Highway Authorities to minimise disruption to all road users.

Together with our contractors, we maximise the use of sustainable methods and material and aspire to deliver high quality in all aspects of our works.

We fully support the NJUG vision statement, which compliments our own dedication to continually improve and work towards our goal of being world class in street works.

Yours sincerely

John Morea
Chief Executive Officer
